N.B. The sales figures for this station relate to the period immediately prior to the reopening of the East London Line as a National Rail service operated by London Overground, The reopening of the line will have had a significant effect on the numbers of people using the station and buying tickets from the booking office. It is therefore recommended that a decision on hrs at this station is deferred until data is available for a period after the East London Line was reopened (recommended September – December 2010 as the first full period).

N.B. The figures for this station indicate that the current booking office hrs may not have been fulfilled for some time – particularly it would appear that weekday afternoon peak and Sunday shifts have not been covered. There appears to be no justification for changing the hrs on a Sunday to ones which are completely different to those in current operation.

This station is served by Stansted Express services – sales in the early morning / late evening are likely to be associated with this airport service. In addition this station is not gated on the National Rail side, but a scheme is likely to be approved prior to letting of the new franchise, this will increase sales at the ticket office as fare evasion is reduced. Therefore recommend deferring any change until the effects of gating is known.

N.B. The sales figures for this station relate to the period immediately prior to the reopening of the East London Line as a National Rail service operated by London Overground, The reopening of the line will have had a significant effect on the numbers of people using the station and buying tickets from the booking office. It is therefore recommended that a decision on hrs at this station is deferred until data is available for a period after the East London Line was reopened (recommended September – December 2010 as the first full period).
